MABEL OSGOOD,
INEZ LOVERING,
School Board of Loudon.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens:

As the chairman of the school board has left town, a report from him will be lacking this year. I shall, therefore, give most of the space in my report to the necessary discussion of the program for improvement of the school buildings.

In 1926 attention was called to the small amount expended in improvements as compared with other towns and in view of the large amount of state aid which Loudon had received.

During the following summer we were definitely warned by the state educational authorities that we should no longer delay the adoption of a program for gradually bringing our schoolhouses up to the standard set by the state board of education in 1919. This standard, so far as Loudon was concerned, had been waived for seven years.

During these seven years we had expended an average of \$371.79 annually for repairs and alterations. State aid is now allowed to Loudon for repairs up to \$200 per year, but it is not the state's policy to spend state money on alterations and improvements of buildings belonging to individual districts.

The state aid received by Loudon for ten years, 1919 to 1928, will total \$18,254.63. This amount has been available for the improvement of our schools; but the improvement of our school buildings is a job belonging to us.

During the last year and the current year the Pearl schoolhouse has been remodeled. The toilets are not yet quite satisfactory and at some time a ventilating stove should be installed, otherwise the work is complete.

Citizens who have not been inside this building during school hours both before and after these changes were made can have little idea of the wonderful improvement and the added comfort of pupils and teacher. From a dark stuffy box it has become a light, fairly airy, attractive and comfortable room.

The Moore School is now housed in our poorest building. Both the Board and the Superintendent question the wisdom of expending much money on this building at present considering the possibility that the number of pupils there may be very much reduced within a short time. Certainly no large sum should be spent for permanent improvements unless it is possible to increase the size of the lot.

The next building to be improved should be either the White schoolhouse or the one at the village.

To continue and complete this program of bringing our buildings up to standard an annual appropriation of \$600 for repairs and alterations will be needed for several years.

For four years now our budget for teachers' salaries has remained about the same and we have employed four trained and four experienced teachers during that period. The experienced teachers have been more permanent. The trained teachers bring to their work some of the latest ideas in teaching. The best teachers of both classes are giving us excellent work.

At present five of our eight teachers are residents of Loudon. This will tend to prevent too frequent changes in the staff. I am inclined to feel that it should be our policy to continue to employ two or three teachers from out of town.

The attendance table shows that the number of tardinesses last year was about half the number of the previous year. In the percent of attendance, also, considerable improvement is shown.

The membership in our local schools has been gradually increasing. The number of children attending high schools, which has been slowly growing larger for several years, is likely to be greatly increased next year.

Respectfully,

GEORGE W. SUMNER,

Superintendent.
